👤 PROFILE

I'm a Full-Stack Web & Android Developer with over 4 years of experience, passionate about building clean, efficient, and user-focused digital solutions. I'm curious, self-motivated, and always eager to learn new things. I've worked on a variety of projects, from responsive websites to powerful mobile apps. I enjoy collaborating with teams, sharing knowledge, and solving technical challenges. I'm comfortable working with technologies like React, TypeScript, Django, Node.js, and C#, and I care deeply about code quality and the overall user experience.
